What can we do to help with campaigns and issues?

- **Get informed**
- **Donate to Campaigns**
- **Hold Meet and Greets** [e.g., Ice Cream Social at Turney Home – Sep 22]
- **Flag and Sign Waving**
- **Freedom Rides / Trump Train**
- **Distribute and/or post campaign signs** [we have some with us today]
- **Engage on Social Media**
- **Call/Text/Write/Walk** – Here are some Apps and websites that can help (and some notes about each). Activity in these apps needs to be coordinated.
 - **CALL: i360 Call** [<https://www.i-360.com/>] – Desktop and phone app promoted by the Jeff Hurd campaign for calling. Has higher quality data than the typical voter rolls. Makes multiple calls at a time and connects you with the first one to answer; the rest get a pre-recorded message. Calling scripts are provided by the campaign. Contact Beverly if you want to get on the Jeff Hurd team to do some calling. Simpson and Craig campaigns may adopt i360, as well.
 - **TEXT: Reach App** [<https://www.reachtheapp.com/>] – smart phone app for general purpose mass texting. A friend in La Plata Co really likes this app (be careful – there are a few apps named “Reach” out there). We can provide data for import into Reach.
 - **WRITE: Write Now** [<https://www.myfaithvotes.org/writenow/>] – Hand-write letters to low-propensity Christian voters, to encourage them to participate.
 - **DATA: Numinar** [<https://www.numinar.com/>] – Mostly a source of useful data. We have Archuleta County data sets in Excel exported from Numinar, which can be used directly or sometimes imported into one of the other applications. Contact us if you want access to these data sets.
 - **Honorable Mention: Turning Point Action App** [<https://www.tpaction.com/app>] – smart phone app primarily aimed at swing states – supports calls, texts, postcards, walking.
